Schedule 1a: Price model – SAGE Premier & RSM

This Agreement offers Licensees the ability to subscribe to a transformative, transitional open access agreement that will enable publication of 100% of articles as open access within the SAGE Premier collection and/or the RSM collection for a single fee, similar to their current spend, as well as access and use of the corresponding collection.

Licensees will choose to subscribe to the SAGE Premier collection (as listed in Schedule 2a), the RSM collection (as listed in Schedule 2b) or both collections. Publishing and access/use rights will apply to the subscribed collection(s) only.

Fees:

The 2020 fee is based on 2019 subscription spend on titles within the collection(s).

This fee will increase annually by 2.75% during the Subscription Period. A core increase of 2.75% applies. This is to provide a fair, stable and predictable cost to members during the transition period, regardless of the number of published articles.

An additional 0.4% increase will be applied for publishing and reading rights to new and transfer journals.

An additional 1% will be added in lieu of former subscriptions to transfer journals. This is based on the average value of transfer subscriptions over the last 5 years and will be offset at individual organisations by savings made when not renewing transfer subscriptions.

Publishing within Hybrid Journals:

Eligible Corresponding Authors are entitled to publish open access an unlimited number of Open Access Materials as further described in Section 2 of Schedule 5.

Publishing within Gold Open Access Journals:

Eligible Corresponding Authors benefit from a 20% discount on the list rate articles processing charges as further described in Section 3 of Schedule 5.

Flipped journals:

Every year, Publisher may flip individual subscription only journals and Hybrid Journals to Gold Open Access Journals. In such case, a credit will applied each September of the Subscription Period to each Licensee based on the number of articles published in 2019 within those flipped titles. The credit might be spent on any Gold Open Access Journals, not only the flipped titles. As an example:

	2019 invoice	2019 published hybrid articles	Articles in flipped titles	ratio	2020 invoice	Gold OA credit
	2013 1110000	Trybrid articles	titles	Tatio	2020 11100100	Gold OA ciedit
Licensee A	£167,300	38	3	0.078947	£180,684.00	£14,264.53
Licensee B	£34,300	15	1	0.066667	£37,044.00	£2,469.60
Licensee C	£143,980	43	7	0.162791	£155,498.40	£25,313.69
Licensee D	£8,433	8	2	0.25	£9,107.64	£2,276.91

Access and Use:

During the Subscription Period, Licensee and its Authorised Users are granted rights to access and use all content within the subscribed collection(s) published on or after 1 January 1999, as further described in the body of the Agreement, in particular its Section 3.

Opt in:

In accordance with Clause 8.4 of the Agreement, any other organisation participating in the so-called "Bibsam Consortium" is able to opt in to this Agreement during the Subscription Period.

The fee applying for opting-in organisations will consist of 130% of the value of their intuitional subscriptions held in the previous year (core subscriptions). The minimum fee is £4,000. If the total (130% of the core subscriptions) is less than £4,000 the minimum £4,000 will apply instead.

If the opting-in organisation's core subscriptions have already been renewed at the point of joining the Agreement, Publisher will invoice 30% of the core subscriptions, with the full value of the holdings being added to the total for the following year. If the opting-in organisation joins mid year, a discount will be offered for the late start.

If the opting-in organisation has cancelled a significant amount of Publisher journals within recent years, Publisher reserves the right to ask the organisation to reinstate some or all of those subscriptions or add these to the core subscriptions cost.
